

SALON GAUTAM

Web/App Developer

CONTACT

EDUCATION

Kathmandu University
Bsc Computer Science
Batch: 2020

SKILL

- Front-End Development
- React native
- API Intergration
- Version Control
- UI/UX Design: Figma
- Problem Solving
- Communication
- Deployment

INTERESTS

- Open Source Contributions
- Multimedia arts
- Writing

HOBBIES

- Coding Challenge
- Web Design
- Tech Blogging
- Reading
- Playing Basketball

PROFILE

A passionate web and app development student with a strong foundation in front-end technologies, JavaScript, and React Native. My experience includes building responsive and visually appealing interfaces, mobile applications, and API integrations. I am eager to continuously learn and contribute to innovative projects with a keen eye for detail and a commitment to coding excellence.

EXPERIENCE

- **React Native Intern in Yaks Incorporation Semester Projects**
- **Foodie (Food Delivery Website):** Built with React.js, Python, and MongoDB for a seamless food ordering experience.
- **Personal Website:** Created using React.js, Python, and MongoDB to showcase projects and skills.
- **Foodie Mobile App:** React Native version of the Foodie website for iOS and Android.
- **Restaurant & Hotel Platform:** MERN stack application for food ordering and hotel bookings.
- **Facetrace:** Facial recognition app using CNN to locate missing people.
- **Clothing Store:** Designed an online delivery platform for clothing using React.js and Node.js.
- **Agri Nepal:** Created a platform for Nepali farmers to easily sell products and connect with buyers.
